NOTES:

Cobweb is a sweet and sensitive girl who prefers to take her time getting comfortable in new surroundings. She will do best in a mature, calm home where her family can give her the space and patience she needs to settle in at her own pace. A little structure, consistency, and gentle encouragement will go a long way in helping Cobweb feel safe and build confidence. Once she has had time to adjust, her sweet personality will have the opportunity to shine. If you appreciate a sensitive soul and are willing to let your relationship grow naturally, Cobweb may be the perfect companion.
