NOTES:

Meet Crisper, a sleek black beauty with a bold spirit and a little wild streak. She's an active, feisty girl who will do best with a cat-savvy adopter who understands feline body language and knows when a spirited cat needs space or a break. With the right approach, Crisper's personality is full of charm and spark. If you appreciate a cat with attitude and are ready to respect her boundaries, Crisper could be a perfect match.
