NOTES:

Doohickey is a sweet and sensitive girl who would much rather be curled up in your lap than anywhere else. She is looking for a patient family that will give her the time, reassurance, and consistency she needs to transition from the shelter into a loving home. Doohickey is still working on potty training and will benefit from a predictable routine and positive reinforcement as she learns. With time to decompress and plenty of TLC, her affectionate personality is sure to blossom. If you're looking for a devoted little companion who just wants to be close to her people, Doohickey may be the perfect match.
