Notes:

Hadley has quickly risen through the shelter ranks as a staff and volunteer favorite and has been patiently waiting for the right home to give her a chance. She loves making new friends, basking in the warm sunshine, and soaking up all the belly rubs she can get. We think Hadley might be potty trained and could be the perfect office buddy for the work-from-home professional. If you need a gentle soul in your life, fill out an application to meet this sweet girl today.
