Notes:

Bright-eyed, bushy-tailed, and eager to learn, Keeva is smart and motivated. Keeva will thrive with a family dedicated to continuing her training; our trainers have worked closely with her and would love to go over everything you need to know. We think that Keeva may enjoy living with a well-matched canine companion and might already have some potty training. If you're ready for an active young thing who is always on the move, Keeva wants you to fill out an application today.
