NOTES:

Meet Loaded Piper, proof that even after a rough start, love can still win. This sweet girl has weathered some hard times but hasn't let them dull her spirit. Piper is friendly, affectionate, and eager to make up for lost time with a family of her own. She may be a little clingy, the kind of dog who wants to stay close and soak up every bit of attention, but after all she's been through, it's hard to blame her. If you're ready to give a good girl her fresh start, Loaded Piper is ready to fill your life with love and loyalty.
