## NOTES:

Meet Meema, a sweet and sensitive girl with a gentle heart. She can be a little nervous when meeting new people, but she warms up quickly once she realizes she's safe and has a friend by her side. Meema is learning the art of sharing and will benefit from a family that can continue teaching her good manners with patience, consistency, and positive reinforcement. With a little reassurance and guidance, Meema's loving personality shines through. If you're looking for a loyal companion who just needs a chance to build confidence, Meema is ready to find a family of her own.
