## Notes:

Meet Mila, your new cuddle consultant who specializes in under-cover operations! Ready to snuggle her way into your heart, Mila believes that no bed is complete without a cozy pup snoozing by your side. She can be shy when making new friends but has warmed up quickly with the help of tasty treats. She could be a match for a family seeking a low maintenance and mature companion. Her foster shares that she is potty trained, loves playing with her toys, and loves zooming around in the yard. If you have love to give and a cozy bed, Mila wants you to submit an application today.
