# Vetcare Program for Seniors

## 322 Clients Helped

🐾 Karen lost her job and was not receiving unemployment due to a clerical issue. Her income was essentially \$0 and her bank accounts were all overdrawn. At the same time her cat named Harley was experiencing stomatitis, a viral infection creating sores in the mouth, and had stopped eating. Harley needed dental surgery. The price tag: \$2,500. That's an amount Karen simply did not have so she turned to VetCare for help. Thanks to that important program, Harley was able to have that life-saving procedure and reunite with Karen.

🐾 Steve, a senior living in San Diego, and his 10-year-old dog, Rowdy, are a major success story for this program. Steve's caregiver, Julie, let us know that Rowdy needed help getting his diabetes under control. A veterinarian at Veterinary Specialty Hospital found that Rowdy had very high ketones which can be life-threatening. Rowdy's vet reported that there was a positive prognosis if the ketoacidosis could be controlled before diabetes medication began. VCP provided the funds for that life-saving treatment. Julie continues to provide health care for Steve... and Rowdy!
