Notes:

Meet Sunbum, the cool cat with extra toes and extra charm! This polydactyl cutie may start off hiding in the shade, but once he warms up, his sunny personality shines through. He's got plenty of energy for playtime and zoomies but will need a little patience and time to feel safe in a new environment. If you're looking for a quirky, sunshine-loving sidekick, Sunbum is ready to brighten your days, SPF not required!
