## NOTES:

Meet Toothless, a sleek black beauty with a lot to say and zero hesitation about saying it. This very chatty girl loves to share her thoughts, narrate her day, and greet new friends like she's known them forever. Confident, social, and full of personality, Toothless would thrive in a home that enjoys an interactive, vocal companion. If you're looking for a cat who brings conversation and charm to every room, Toothless is ready to talk her way into your heart.
